ABOUT THE ORA

The ORA represents primarily small to medium sized healthcare businesses that collectively employ upwards of 4000 healthcare providers including Regulated Health Professionals from all disciplines, social workers, personal support and rehabilitation support workers. We are the primary providers of rehabilitation to Ontarians seriously injured in automobile accidents. Most of our members work throughout the healthcare system, giving us a wide-angle view.

We are the only association focused primarily on the interests and issues of health providers in the auto sector.

COLLECTIVE VOICE

Our Mission is to develop and maintain a vigilant presence in the public and policy-making arenas influencing the delivery of community- based rehabilitation in Ontario, advocating for improved access, accountability and patient-centered care.

- **Our Vice President sits on the Technical Advisory Committee**
- **Our Executive Director is in communication with professional associations and other stakeholder groups**

INTEREST & ACTION GROUPS

When shared issues arise across our membership, we facilitate interest & action groups to:

- problem solve the issue together
- create and distribute resources
- share success stories and struggles
- create surveys in order to collect relevant data and support advocacy measures
- support common advocacy measures

Current Interest & Action Groups

FORUMS

Do you have questions about:

- denials
- forms
- business operations
- or other industry questions...

Pop your question into one of our Forums to connect with and pick the brains of other Health Providers in the industry.

HELP DESK

We understand the importance of networking and sharing resources. The Help Desk is a resource for members to access when they need answers and support, but don't wish to post openly on our forums.

Submit your questions via our help desk form and our gurus will respond. If they can't answer the question, the ORA admin will post your questions anonymously for all members to offer their support.

SOLUTIONS PANTRY

THE ONTARIO REHAB ALLIANCE'S RESOURCE LIBRARY

Over the years, the ORA has developed resources and archived workshop presentations for our members to continue to benefit from the information we have gathered / shared through surveys, events, task groups, webinars, frequently asked questions, committees, discussion groups, phone calls with members, and more.

Membership includes FREE access to all of the resources in our Solutions Pantry.
